

Kevin Jones

SECURITY CLEARANCE: ACTIVE TS/SCI

Technical Skills

Languages: JavaScript | TypeScript | C# | HTML | CSS

Frameworks, Libraries & Databases: Angular | ASP.NET | jQuery | Bootstrap | MySQL

Development Tools: Git/ GitHub | WebStorm | Visual Studio | VS Code

Project Experience

Simple Simon: 2016

Built a memory game based on the classic Simon. Enhanced the gameplay experience by adding customized sound effects and difficulty levels based on user input.

Technologies Used: JavaScript | jQuery | HTML | CSS

Weather Map: 2016

Created weather map that allows users to check multi-day weather forecasts for any location in the world. Used Maps API to allow drag and drop function for enhanced UX.

Technologies Used: Google Maps API | JavaScript | jQuery | Open Weather Maps API

Jikan Time Tracking: 2017

Designed and created a full-stack, time tracking app for freelancers, business owners and entrepreneurs, which gives them the capability to keep track of time spent on projects for invoicing purposes.

Technologies Used: Java | Spring | Thymeleaf | MySQL | JavaScript | jQuery | Skeleton

Work Experience

Software Engineer, Farm Bureau Bank, May 2019 – Present

Develop, test, analyze, and maintain software applications in support of the achievement of business requirements. This includes writing, coding, testing, and analyzing software programs and applications. Writes, tests, develops and implements custom programs to streamline financial institution workflows. Tech stack: ASP.NET

Software Developer (Contract Role), CNF Technologies, Mar 2018 – December 2018

Developer for a full-stack ASP.NET MVC 5 website, utilized by the U.S. Air Force to maintain and track data on current and future cryptographic products. In this role, other than ASP.NET inherent tech, I utilized technologies such as DataTables, Bootbox, Font Awesome and Bootstrap 3.

System Developer Associate, Accenture, June – November 2017

As a System Developer Associate, I developed and maintained financial software utilizing IBMs Data Analytics platform, TM1. This role utilized proprietary software developed in house to serve the client base of Accenture Federal Services.

Soldier, U.S. Army, Sep 2001- Nov 2016

As the leader of special operations teams in several countries I was responsible for millions of dollars of equipment and development funding. In this role I planned, coordinated, and conducted multiple training events for the team in order to prepare them for deploying into combat and non-combat environments. I also trained and led teams, as Senior Enlisted Advisor and Medical Provider, on multiple combat deployments.

Education

Bellevue University – Web Development B.S.

Jun 2020 - Present

Codeup – Codeup is an immersive, full-stack career accelerator that provides students with 536 hours of expert instruction in software development.

Oct 2016 – Mar 2017
